SCUBA SKILLS UPDATE

How long has it been since your last dive?
Feeling rusty? Need to brush up on your dive skills before your vacation?

The Scuba Skills Update is designed especially for you. The course is designed to refresh what you learned in previous courses, put the edge back on your skills and enhance your confidence to make your diving safe and enjoyable.

REQUIREMENTS

You must be a certified scuba diver to participate in the Scuba Skills Update course. We welcome divers certified with any agency. You must show proof of certification and have a current medical statement to participate in the Scuba Skills Update.

To reserve your spot for any update course stop by the scuba center, show your c-card, fill out waivers & medical, pay course fee and digital materials fee.

TRAINING

The Scuba Skills Update course condenses the basic academic skills you learned in the classroom along with the water skills you learned in the confined water sessions into a short course. You can easily complete the course in a few hours.

You will spend the first part of the course with one of our highly qualified instructional staff members. In this portion of the course you will review the basics of physics and physiology learned in your Open Water Course. This includes the effects of increasing pressure and the mechanics of the dive tables.

You will then move to the confined water where you will refresh your understanding of the equipment, entries and exits, and various in-water skills.
